PROJECTS

[ShopO ↗](#)
Mar 2023 - Apr 2023

A personal MERN stack project showcasing a fully functional e-commerce platform. Developed using React.js for the frontend, Node.js and Express.js for the backend, and MongoDB for the database. Implemented Stripe API for secure payment processing. Styled using Tailwind CSS, ensuring a responsive and modern UI. Integrated Redux Toolkit for efficient state management and seamless user experience.

[ShopCart ↗](#)
Nov 2024 - Present

Developing a personal e-commerce application for practice, ShopCart, using Next.js for the frontend and Fakestore API for the backend. Utilized Tailwind CSS to create a responsive, mobile-friendly UI and implemented Redux Toolkit for efficient state management, ensuring a seamless user experience.
