PROFILE SUMMARY

React Frontend Developer with 3 years of experience building high-quality web and mobile applications using ReactJS, React Native, and modern JavaScript tools. Skilled in creating dynamic UI components, integrating REST APIs, managing complex form flows (Formik/Yup), and implementing feature-based architecture. Experienced in handling app build processes for Android and iOS, optimizing performance, and resolving production issues. Passionate about writing clean, reusable code and continuously improving user experience and application reliability.

TECHNICAL SKILLS

Frontend Development: React.js, Next.js, React Native, HTML5, CSS3, Tailwind CSS, Material-UI, Styled Components

State Management: Redux, Redux Toolkit, Context API, Zustand

Backend & APIs: Node.js, RESTful APIs

Programming Languages: JavaScript, TypeScript

Tools & Version Control: Git, GitHub, GitHub Desktop

Others: Formik, Yup, API Integration, Performance Optimization, Responsive Design

PROFESSIONAL EXPERIENCE

ReactJS Developer

Prominno Labs Private Limited, Pune

February 2025 – Present

- Developed and maintained **scalable React-based web applications** serving **1000+ users**.
- Built reusable UI components and optimized rendering performance using best React practices.
- Improved application performance by **20%** through efficient **state management (Redux, Context API, Zustand)**.
- Integrated REST APIs and collaborated with backend teams on request/response payload structures.
- Diagnosed and resolved production bugs to improve application stability and user experience.

Junior Software Engineer

Apexinfy Technologies (OPC) Pvt. Ltd., Kolkata (Remote)

January 2023 – January 2025

- Developed and maintained **3+ production-level web applications** using **React.js, TypeScript, and Redux**.
- Designed **responsive and user-friendly interfaces** using **Material-UI and Tailwind CSS**.
- Integrated **third-party APIs** to extend application features and meet business requirements.
- Worked closely with UI/UX designers, backend developers, and QA teams to ensure timely project delivery.
- Achieved **100% client satisfaction** through consistent delivery and quality enhancements.

EDUCATION

Master of Science (M.Sc.) in Computer Science.

June 2018 – September

2021

Karmveer Abasaheb Alias N.M. Sonavane Arts, Commerce and Science College, Satana, Nashik.

KEY ACHIEVEMENTS

- Reduced application load time by **20%** through component optimization and performance tuning.
- Successfully delivered multiple production-ready applications with minimal post-release defects.
- Recognized for clean coding practices and effective cross-team collaboration.
